Sense Organics™

EST. 1996
for little people

For more than 20 years, we have been producing colorful and beautiful baby and children fashion in **premium organic quality**. You can be sure of the durability of our timelessly designed products, that friends or younger brothers and sisters will be able to enjoy as well. All used substances are non-toxic, cuddly soft and especially suitable for the sensitive skin of babies.

But not enough: All of our garments are produced **socially and environmentally friendly** – from seed to seam.

We know our producers and their manufacturing facilities, partly already for over 20 years.

All of our commercial partners in production are certified **GOTS and SA8000**.

Furthermore, Control Union, an independent control institution, regularly checks the conformity of standards.

With every purchase at Sense Organics you contribute a grain of sand, to make our world a bit better. For us and especially: for the small ones.

Your Sense Organics Team
